

ENGINE+ UPGRADE
XP140 FOR CESSNA CARAVAN

6 PERFORMANCE BENEFITS

The Blackhawk XP140 Engine+ Upgrade for your Caravan or Grand Caravan improves performance, increases reliability, raises your safety margin, and provides a significant return on investment over the stock engine. Check the facts and start saving today with a Blackhawk engine upgrade.

1

FLY AT 195+ KTAS ON A STANDARD DAY

That's an average of almost 20 ktas faster than with the stock engine.

2

28% INCREASE IN AVAILABLE HORSEPOWER

More power for takeoff, climb, and cruise. (stock 675 shp, Blackhawk 867 shp)
More power at cruise altitude (1,800 RPM at 12,000 feet ASL).

3

ACCESS TO MORE DESTINATIONS

Get in and out of more airports, Take off from shorter runways with max takeoff weight in all conditions.

4

37% INCREASED CLIMB RATE

Earn more revenue; whether it's with more cargo, more people, or more skydive trips; with the capability to reach altitude in half the time.

5

TWO WEEK INSTALL

Retain your existing cowling engine mount and exhaust system. Be back in the air in less time than a standard overhaul and with a factory-new engine.

6

IMPROVED SAFETY

Enjoy added peace of mind with the flexibility to takeoff sooner, climb faster, and power through and above inclement weather.
